(Exhibits Nos. 50 and 51 were marked.)

Q. BY MR. SKERIOTIS: Mr. Falkenberg, you have just been handed what have been marked Exhibits 50 and

51, do you recognize those documents?

A. I haven't seen these documents before.

9 Q. I will purport to you that Exhibit 50 is a

U.S. trademark registration for Soil-Sement,

S-e-m-e-n-t, Registration No. 1,204,198, and Exhibit 51

is a U.S. trademark registration for the same mark

Soil-Sement, Registration No. 2,222,732, and the

differences between the two are basically the goods.

Do you have a product that is competitive to Midwest's Soil-Sement?

A. I believe we have products that would compete

against Soil-Sement in the marketplace.

19 Q. In fact the product you have is Soiltac,

20 correct?

Q. What other ones do you have that you believe

24 would compete with Soil-Sement?

25 A. It would depend on the application and how the

e 1 Q. BY MR. SKERIOTIS: Mr. Falkenberg, you have

2 just been handed what has been marked as Exhibit 52; do

3 you recognize that document?

A. It appears to be a printout of Google search results

6 Q. Google search results for the mark soil 7 sement?

A. Soil sement is listed in the search, and

9 that's soil sement with an S.

**Q.** Correct. And do you see on the right-hand side under Sponsored Links it says Soiltac soil stabilizer? Do you see that?

A. I see that.

**Q.** Do you know how it came to be that the search for soil sement on Google's web site produced as a sponsored link Soiltac soil stabilizer?

A. There must be a term that is a trigger for that sponsored link to appear.

19 Q. What term would that be?

**A.** Well, if I am guessing it would either be the entire phrase or it would be either of those words.

**Q.** Who is in charge at Soilworks of adopting key words for Google's web site?

**A.** I am the person that primarily has dealt with our Google campaigns.

323

1 Soil-Sement was being used.

Q. To your knowledge has Soil-Sement ever been in competition with Durasoil?

4 A. Not to my recollection.

5 Q. Has Soil-Sement ever been in competition with

6 Gorilla-Snot?

A. I think it's very likely.

Q. Has Soil-Sement ever been in competition with

9 Surtac?

A. It's possible.

11 Q. And I think there is one more. Has

12 Soil-Sement ever been in competition with Powdered

13 Soiltac?

14 A. That's possible.

Q. I think that's all five. When did you first

know that Soil-Sement was a registered trademark of

17 Midwest?

A. I am really not sure.

19 Q. When did you first become aware of the product

Soil-Sement?

A. Most likely when I worked for Environmental

22 Products Applications.

Q. And that was prior to 2003 then, correct?

24 A. That sounds right.

(Deposition Exhibit No. 52 was marked.)

Q. Was there ever a time that you indicated to Google that you would like your web site Soiltac dot

com to pop up when someone is searching for soil

4 sement?

A. What do you mean by indicated to them?

Q. Well, have you ever taken out the key word soil sement so that Soiltac dot com would pop up as a sponsored link?

A. I believe so.

Q. And you did that because you wanted someone searching for soil sement to see Soiltac under the sponsored link, correct?

**A.** That trigger, we wanted the result of our ad to show up with that trigger.

**Q.** Correct. And the trigger being soil sement?

A. If that's the key word that was being used.

**Q.** Do you know if that's the key word that was being used?

**A.** I believe that that key word is used or has been used.

Q. It's my understanding, then, that you chose the trademark soil sement as a key word on Google's web site so that when someone searches for soil sement they

24 find Soiltac, correct?

A. As a trigger term?
